

We are looking for a dedicated individual to join our team as soon as possible as a
Technical Assembly Operator (m/f/d)

Your role

In this position, you will be responsible for the assembly, commissioning and maintenance of our 3D lithography systems. Your practical skills and commitment are crucial to the quality and reliability of our products.

Your tasks

- Assembly and installation of system components for industrial 3D lithography tools
- Support in carrying out functional tests and quality controls
- Assistance with system installation and process adjustments
- Support in the optimisation of assembly and maintenance processes
- Collaboration with technical teams to ensure product quality

Your profile

- Basic technical knowledge and willingness to familiarise yourself with new areas of responsibility
- Training as an industrial mechanic, mechatronics technician, laboratory technician or comparable technical training is an advantage
- Practical experience in a skilled trade is an advantage
- Good problem-solving skills
- High quality awareness
- Ability to work independently in an international team, knowledge of English and German is an advantage.

Your application

Please send us your detailed application with curriculum vitae, references, certificates, and salary requirements by e-mail to jobs.vanguard@mycronic.com.
